Description

The IBS special-purpose pump, type W100/W-250, is a self-priming pump and has been specially developed for use in the IBS parts cleaning machine. The pump has a low flow rate and does not build up pressure, thereby meeting all the requirements of the relevant standard (EN 12921). The unique suction system and the magnetic slip clutch ensure maintenance-free operation and a long service life. When used with IBS special cleaner, we provide an extended 3-year manufacturer’s warranty.

Contents:

- IBS special pump (without foot switch)
- Connection cable with plug (no earth plug)
- Brush hose
- IBS special coarse brush
- Hose clamps

Special feature:

- Material of pump tube and pump shaft: stainless steel 1.4301
- Pump shaft mounted on ball bearings (ball material: glass)
- The pump is fully assembled and ready for immediate use.
