Overview

IBS-Fast-Acting Degreaser Blitz

Product number: 2050042

06701-9383-0
info@ibs-scherer.de

Description

Technical advantages

- Removes oil, grease, resin incrustations, silicones, adhesive residues, tar, bitumen, mechanical cleaning effect due to high spray pressure
- BLITZ-quick evaporation
- Residue-free
- Odour - mild (typical for the type)
- No metal corrosion
- Special properties - high yield due to filling with carbonic acid
- residual emptying guaranteed - even when cleaning "overhead
- industrial spray head with ball valve and extended nozzle - thus low evaporation losses during the spraying process due to precise working, even with gloves on

Environmental and workplace-related advantages

- Air hazard class - TA-Luft, class: NK, proportion: 95.2%
- Water hazard class - WGK 2 (self-classification) Classification based on the Administrative Regulation on Substances Hazardous to Water (VwVwS) of August 2005

Approvals

- Approval Deutsche Bahn AG: complies with the qualification conditions of DB AG.

This product is available as a 500ml spray can. The packaging unit (minimum order quantity) is 1 carton of 12 spray cans.

Product information

Labelling:	GHS02,GHS09,GHS07
Propellant gas:	Propane/butane/CO2
Smell:	petrol-like
