Description

Description

Wherever WAS 10.100 and WAS 10.500 are already in use. In a few cases, an additional cleaning booster may be necessary.

Advantages

- Liquid concentrate on an aqueous basis - no powder
- Gentle on materials - suitable for sensitive surfaces / workpieces (painted surfaces, brass, copper, zinc, nickel, chrome, aluminium, plastics of all kinds)
- Environmentally friendly and user-friendly
- silicate-free

Recommended dosage

Concentration: 0.3-0.5% (based on the bath volume). For example, if your automatic washing machine contains 110 litres (IBS-MAXI 78), you will need to add 0.33 - 0.55 litres of IBS cleaning booster additive.
