Description

Description:

The spray head adapter enables precise application in hard-to-reach areas. With this accessory, MultiFix can be applied quickly and easily to large areas.

The adapter is ideal for use when travelling as it is simply attached to the spray can.

Advantages:

Optimum spray pattern: The spray head produces a fine and even spray pattern that ensures optimum distribution of MultiFix.

Flexibility: The adapter can be used for various applications, from precise application to working on large surfaces.

Mobility: The spray head adapter is compact and lightweight, making it easy to transport and use.
