## Overview

# IBS cleaning brush, wide - coarse bristles 0.5 mm

**Product number:** 2222010

## Description

The IBS special brush is a hollow brush, wide, with coarse bristles, specially developed for use in the IBS parts cleaner. The handle is conically shaped and is attached to the brush tube. The bristles are made of special nylon (0.5 mm thick). The cleaning brush is suitable for coarse contamination and all standard cleaning applications with the parts cleaning device.
