Description

Effective cleaning with the IBS safety cleaner Tornado Spray

The IBS Tornado spray safety cleaner is a highly effective cold cleaner for professional degreasing and cleaning of machines, tools and metal parts. It was specially developed for use in industry, workshops and maintenance and repair areas.

Strong cleaning performance for stubborn dirt

The Tornado Spray impresses with its excellent wetting properties. It reliably infiltrates and dissolves oil, grease and stubborn encrustations - even in hard-to-reach places.

Optimised for mobile use

Thanks to the practical spray can, the cleaner is ideal for flexible, mobile use. The industrial spray head with extended nozzle enables precise work, even overhead and when wearing gloves.

Cleaning without residue and gentle on the material

After use, the cleaner evaporates in a controlled manner and leaves no residue behind. It is acetone-free, does not cause metal corrosion and has a mild odour - ideal for everyday use.

Technical properties

- Product type: Cold cleaner / safety cleaner
- Form: spray can
- Properties: residue-free, acetone-free, non-corrosive
- Application: degreasing, cleaning

Product information

Colour:	colorless
Inhalt:	500 ml
Labelling:	GHS02,GHS07
Propellant gas:	CO2
Size:	Spray
Smell:	solvent-like
