Description

Applications:

For fast, material-friendly cleaning and care of all surfaces, parts, operating equipment, machines, vehicles and devices. Universally applicable indoors and outdoors.

Fields of application:

Cleans all metal, stainless steel, (plexiglass) glass, chrome, rubber and plastic parts.
Cares for plastic and painted surfaces
General cockpit cleaning (driver's cab, dashboard, windows, upholstery, seats, brackets, housings).

soiling:

- Oil and grease stains of all kinds
- Tar stains
- General environmental soiling and deposits, fingerprints, dust, chips.

Advantages/characteristics:

- Cleans, degreases, maintains at the same time
- intensive effect thanks to high-yield adhesive foam
- Plexiglas remains clear and undamaged - no blind panes after cleaning
- streak-free glass cleaning
- residues - leaves no dirt marks (textile)
- very gentle on the material and powerful at the same time

Application:

Shake the container intensively before use. Apply the foam cleaner to the area to be cleaned from a distance of approx. 25 cm and allow it to react briefly. Then clean with a damp sponge or chamois leather. In case of very heavy soiling, the above-mentioned procedure must be repeated. As the composition of textile fibres can vary greatly, especially with regard to colouring, it is advisable to carry out a compatibility test on a concealed area before cleaning.

Product information

Labelling:	GHS02
Propellant gas:	Propane/butane
Smell:	pleasant
